

From Despair to Hope

A Clear Vision of Neurodiversity in a Confusing World Using NVR

In memory of our friend and colleague, Catrina Scanlan, NVR Ireland and the East Coast NVR Practitioners Network are delighted to host an NVR Webinar on June 18th, 2021 from 9.30am 12pm.

The event will begin at 9.30am when we will use breakout rooms to allow for small group networking and introductions. The webinar will begin at 10am sharp.

Speakers: Jack Wilson and Nicky Rees, New Leaf NVR

Jack Wilson

Jack was raised in a household where NVR was employed from a young age to manage his ADHD, meaning Jack has been around NVR for over half of his life. Jack later qualified as an NVR practitioner so that he could bring his unique perspective to the model, as well as his intimate understanding of ADHD and sensory processing difficulties. Jack is now working with families and professionals all over the world.

Nicky Rees

Nicky first participated in an NVR parenting group in 2017 to address high-level behaviours exhibited by her eldest child who is diagnosed with Autism Spectrum Condition and has a complex range of needs. Nicky went on to support her second child who developed school centred anxiety by using the NVR model. Nicky continued her NVR journey as a parent helper in several other NVR parent groups before qualifying as an NVR practitioner.

**Register in advance for this webinar by clicking on or copying the link into your browser:
